Job Title	Deputy Manager (CQC)		
Job Reference No.	TfC006	Date of issue:	April 2026

The job in a **nutshell...**

As deputy to the Clinical/Registered Manager you will act as a compassionate and knowledgeable leader ensuring the delivery of a high quality, safe, cost-effective and person centred service in line with CQC Fundamental Standard regulatory requirements. You will support the Registered Manager lead a care and support team who will deliver a good quality care service to a range of customer groups including Older People, Learning Disabilities, Mental Health and Complex Needs, depending what service you are based in. As managers you will lead the support team to improve customers' quality of life and maximise independence as well as making it a great place to work. You will deputise for the manager to maintain highest levels of customer safety and support integration back into a community environment.

What **success** will look like...

Our services are well-led through your brilliant leadership skills to ensure an inclusive and positive culture of continuous learning and improvement. You'll do this by keeping colleagues abreast of performance indicators, relevant news from the regulator and wider health and social care sector; ensuring teams provide efficient and effective person-centred and strengths-based services to customers with complex needs working closely with clinical colleagues; and using information about outcomes, performance and risk to improve care

Safe: You will deputise for the Clinical/Registered Manager who is the Designated Person for Safeguarding within the service. In their absence you will ensure that adequate arrangements are in place to ensure their team have the necessary information, training and supervision to provide effective safeguarding for adults at risk of abuse or neglect and children and young people who come into contact with the service.

Safe staffing levels are key to customer safety and you will take ownership of allocating resources according to customer needs and contract, managing rotas and enabling colleagues to have appropriate leave.

To deliver the best quality of life and independence to our customers we use LIFE support model focusing on what is important to our customers. Working closely with the team you will ensure customers have the appropriate assessments, support and safety plans in place focusing on key outcomes for the customer. Where you are based in our Complex Care

services Positive Behaviour Support is our fundamental approach.

Effective: The service will deliver great outcomes for customers and to achieve this you will ensure support is co-ordinated, effective and care provided is person centred and effectively documented in support files.

A key activity is to monitor quality and provide the Clinical/Registered Manager with evidence that the service meets and exceeds the requirements of the Health and Social Care Act 2008 (Regulated Activities) Regulations 2010 and the Care Quality Commission Guidance (Fundamental Standard Regulations).

Individual and team performance will be managed by you, setting effective objectives, assesses competency areas and meeting regularly in line with HRD processes.

Caring: Enabling the customer to be at the centre of the support is key and you will ensure colleagues deliver their activities in a caring, compassionate manner facilitating involvement of the customer and their family. You will support customers to be actively involved in making decisions about their care, treatment and support.

You will monitor the quality of support work, support planning and risk assessment so all customers receive excellent support aligned to their aspirations.

Responsive: You will work with your team to create an environment that is responsive to customer's needs and respect for diversity e.g. feedback is acted upon, independence is promoted and staffing levels are appropriate for service need.

Communication between your support team, internal clinical team, where appropriate, external professionals and people important to our customers is crucial to ensure support is responsive to fluctuating needs.
